

California Cleaning Product Right to Know Act

Product Information	
Product Name	CLEMENTNE HNEY APTH ROOM SPRY
SKU Number	613697

Manufacturer Information	
Name of Company / Manufacturer	World Market
Phone Number	World Market Toll-free: (877) 967-5362
Mailing Address	1201 Marina Village Pkwy, Alameda CA 94501

Date of Disclosure

Ingredients		
ingredient	function	CAS #
BENZYL ALCOHOL	fragrance	100-51-6
BENZYL BENZOATE	fragrance	120-51-4
CITRAL	fragrance	5392-40-5
CITRONELLOL	fragrance	106-22-9
LIMONENE	fragrance	5989-27-5
LINALOOL	fragrance	78-70-6

†contains fragrance allergens

Hazard(s) Identification From Safety Data Sheet	
H317	LIMONENE

SAFETY DATA SHEET

In accordance with GHS/OSHA edition

1. Identification

1.1 Product identifier used on the label: CLEMENTNE HNEY APTH ROOM SPRY
1.2 Other means of identification: CLEMENTINE HONEY 5%

1.3 Recommended use of the chemical and restrictions on use: Air freshener

1.4 Supplier:

Manufacturer:

Aroma Bay Candles Co., Ltd.
Hung Dao ward Duong Kinh dist.
Hai Phong City Vietnam.
Zip Code 18000
Information Telephone: 84-313-981178
Fax: 84-313-981180
Website: [Http://homeaccent.com.cn](http://homeaccent.com.cn)

Importer:

World Market
1201 Marina Village Parkway, Alameda, CA 94501

1.4 Emergency phone number:

(800) 255-3924 Domestic USA, Canada, Puerto Rico, and US Virgin Islands
+1 813 248-0585 International

2. Hazard(s) identification

2.1 Classification:

2.1.1 Classification according to OSHA(§1910.1200 of title 29)

Physical:	Health:
NA	Skin sensitisation–category 1

2.2 OSHA Label Elements:

symbol(s):

Signal word: Warning

Hazard statement(s): H317 May cause an allergic skin reaction

Precautionary statement(s):

P102: Keep out of reach of children.

P103: Read label before use.

P302+P352: IF ON SKIN: Wash with plenty of water.

P333+P313: If skin irritation or rash occurs: Get medical advice/attention.

P501: Dispose in accordance with local/regional/national/international regulations

2.3 Describe any hazards not otherwise classified that have been identified during the classification process;

Not available.

2.4 Where an ingredient with unknown acute toxicity is used in a mixture at a concentration = 1% and the mixture is not classified based on testing of the mixture as a whole, a statement that X% of the mixture consists of ingredient(s) of unknown acute toxicity is required.

Not available.

3. Composition/ information on ingredients

3.1 Except as provided for in paragraph (i) of §1910.1200 on trade secrets:

3.2 Substance/Mixture: Mixture

Ingredients:

Component	CAS No.	EC No.	Concentration	Classification
Water	7732-18-5	231-791-2	70.00%	Not classified
TPM	25498-49-1	247-045-4	15.00%	Not classified
Castor oil, hydrogenated, ethoxylated	61788-85-0	500-147-5	10.00%	Not classified
Fragrance/247542	NA	NA	5.00%	Skin Sens. 1 H317

4. First-aid measures

4.1 Description of necessary measures, subdivided according to the different routes of exposure:

As in all cases of potential poisoning, Obtain medical advice immediately.

4.1.1 Eye contact: Irrigate copiously with water for at least 10 minutes. Obtain medical advice if any irritation or evidence of tissue damage persists.

4.1.2 Skin contact: Remove contaminated clothes. Wash skin with large volumes of water.

If irritation persists, or any sign of tissue damage is apparent, obtain medical advice immediately.

4.1.3 Ingestion: Rinse mouth with water. Obtain medical advice immediately.

4.1.4 Inhalation: Remove the individual to fresh air and keep at rest. Obtain medical advice immediately.

4.2 Most important symptoms/effects, acute and delayed.

Potential acute health effects

Eye contact: No known significant effects or critical hazards.

Inhalation: No known significant effects or critical hazards.

Skin contact: May cause an allergic skin reaction.

Ingestion: No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact: No specific data.

Inhalation: No specific data.

Skin contact: Adverse symptoms may include the following irritation redness..

Ingestion: No specific data.

4.3 Indication of immediate medical attention and special treatment needed, if necessary.

Not available

5. Fire-fighting measures

5.1 Extinguishing media:

In the event of fire, adequate extinguishers should be used. Avoid inhalation of smoke and fumes. In case of

insufficient ventilation, wear suitable respiratory equipment.

Suitable Extinguishing Media: Use universal foam, dry chemical, or carbon dioxide.

Unsuitable Extinguishing Media: Do not use direct water jet on burning material.

5.2 Specific hazards arising from the chemical: No specific fire or explosion hazard.

Hazardous thermal decomposition products: carbon monoxide, carbon dioxide, and unknown organic compounds from burning.

5.3 Special protective equipment and precautions for fire-fighters.:

Special Protective actions for fire-lighters: promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special Protective Equipment for Fire-Fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:

For non-emergency personal precautions, protective Equipment: Adequate protective gloves should be worn when handling spillages. No smoking. Avoid naked flames or other potential sources of ignition (eg. electrical equipment). Avoid skin contamination and inhalation of vapour. Individual washing routines should be followed after any potential contact. Ensure adequate ventilation in working areas following accidental releases.

For emergency responders: Avoid contact with skin, eyes. See also the information in "For non-emergency personnel"

Environmental Protection: Do not discharge directly into drains, air, into soil or into the aquatic environment. Inform the local authorities if this cannot be prevented.

6.2 Methods and materials for containment and cleaning up

For containment:

Any absorbent used for cleaning up spillage should be disposed promptly, accordingly to local regulation. Gross spillages should be contained by any means, and disposal of this should be in accordance with Government Regulations.

For cleaning-up:

Spillages should be disposed of in accordance with Governmental Regulations.

6.4 Reference to other sections:

See section 7 for information on safe handling.

See section 8 for information on personal protection equipment.

See section 13 for information on disposal.

6.5 Additional information: NA

7. Handling and storage

7.1 Precautions for Safe Handling:

Avoid contact with skin and eyes.

Wear adequate protective gloves protection and eye/face protection.

No smoking. Avoid any sources of ignition.

Avoid exposing to high temperature during processing.

Do not ingest or apply to the skin as such. Good personal washing routines should be followed.

Maintain adequate local and general ventilation where product is handled.

Protective measures: Keep strict control of dust accumulation to a minimum. Maintain adequate local and general ventilation where product is handled. Avoid any sources of ignition.

Advice on general occupational hygiene: Good personal washing routines should be followed.

7.2 Conditions for Safe Storage, Including Any Incompatibilities: It is good general practice to store in closed, preferably full, containers away from heat sources, and protected from extremes of temperature. Do not re-use the empty container. Respect general rules for compatibility storage.

8. Exposure controls/personal protection

8.1 Control parameters:

OSHA permissible exposure limit (PEL): NA

American Conference of Governmental Industrial Hygienists (ACGIH) : NA

Threshold Limit Value (TLV): NA

Any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available: NA

8.2 Appropriate engineering controls: Avoid exposing to high temperature during processing. Maintain adequate local and general ventilation where product is handled.

Appropriate engineering controls: Maintain adequate local and general ventilation where product is handled and dispensed.

Environmental exposure controls: Not available at this time. Minimize release to the environment.

8.3 Individual protection measures, such as personal protective equipment.

Respiratory protection: Where ventilation (LEV) is inadequate to prevent any inhalation of substances, use adequate respiratory apparatus.

Hand protection: Adequate Protective Gloves should be worn.

Eye protection: Adequate safety glasses should be used.

Skin protection: Wear protective clothing, overall if necessary to limit the odour contamination of personal clothing. Individual washing routines should be followed after any potential contact.

9. Physical and chemical properties

Appearance (physical state, color, etc.);	Liquid
Odor	CLEMENTINE HONEY
Odor Threshold:	Not established
pH:	Not available
Melting/Freezing Point:	Not available
Initial Boiling Point/Range:	Not applicable
Flashpoint:	≥ 66°C closed cup(estimated)
Evaporation Rate:	Not available
Flammability (solid, gas):	Not applicable
Upper/lower flammability or explosive limits;	LEL: Not available UEL: Not available
Vapor Pressure:	Not applicable
Vapor Density:	Not available
Relative Density:	Unknow
Solubility(ies);	Soluble in oil . Hardly soluble in water
Partition coefficient: n-octanol/water;	Not available
Auto-ignition Temperature:	Not available
Decomposition Temperature:	Not available
Viscosity:	Not available
VOC Content:	< 18%
Relative density (d 20/20) :	0.9517

10. Stability and reactivity

10.1 Reactivity: No specific test data related to reactivity available for this product or its ingredients. No reaction known with water.

10.2 Chemical Stability: Stable under normal storage and handling conditions.

10.3 Possibility of Hazardous Reactions: Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to Avoid(e.g., static discharge, shock, or vibration): Avoid temperatures above or at

least 5 °C below flash point for any flammable liquids.

Avoid contact with oxidizing agents. Keep away from heat, sparks, flames and other sources of ignition.

10.5 Incompatible Materials: Not known.

10.6 Hazardous Decomposition Products: Contact with water or storage under recommended conditions for one year should not produce dangerous decomposition products.

11. Toxicological information

This mixture has not been subjected to toxicological testing as an entity. According to available data on the constituents the health classification criteria are met.

11.1 Information on the likely routes of exposure;

Acute toxicity: not classified.

Skin corrosion/irritation: May cause an allergic skin reaction.

Serious eye damage/irritation: not classified.

Respiratory or skin sensitization: not classified.

Germ cell mutagenicity: not classified.

Carcinogenicity: not classified.

Reproductive toxicity: not classified.

STOT-single exposure: not classified.

STOT-repeated exposure: not classified.

Aspiration hazard: not classified.

11.2 Symptoms related to the physical, chemical and toxicological characteristics: NONE

11.3 Delayed and immediate effects and also chronic effects from short- and long-term exposure: NA

11.4 Numerical measures of toxicity (such as acute toxicity estimates): NA

11.5 Whether the hazardous chemical is listed in the National Toxicology Program (NTP) Report on Carcinogens (latest edition) or has been found to be a potential carcinogen in the International Agency for Research on Cancer (IARC) Monographs (latest edition), or by OSHA : NO

12. Ecological information (Non-mandatory)

This mixture has not been subjected to ecotoxicological testing as an entity. According to available data on the constituents the environmental classification criteria are met.

Ecotoxicity (aquatic and terrestrial, where available): Not available. Product is not classified as harmful to the environment.

Persistence and Degradability: Not available.

Bioaccumulative Potential: Not available.

Mobility in Soil: Not available.

Other Adverse Effects: Not applicable.

13. Disposal considerations (Non-mandatory)

13.1 Waste treatment methods:

Residual quantities of the product should be treated according to the instructions given under points 6, 7 and 8 above. Wastes should be eliminated according to national or regional regulatory requirements currently in force. Minimize release to the environment.

13.2 Product/ Packaging disposal

The recommendations given are considered appropriate for safe disposal. However, local regulations may be more stringent and these must be complied with.

Rinse three times with suitable solvent. Drain container thoroughly. Treat rinsing as for product disposal.

Empty containers should be taken to local recyclers for disposal.

14. Transport information (Non-mandatory)

In case of accidental spillage or fire during transport, refer to instructions given under points 5, 6, 7 and 8 above.

	Land	Sea	Air transport
--	------	-----	---------------

	transport(ADR/RID)	transport(IMDG)	(ICAO/IATA)
UN-Number	NA	NA	NA
UN Proper shipping name:	NA	NA	NA
Transport hazard Class(es):	NA	NA	NA
Packaging group, if applicable:	NA	NA	NA
Environmental hazards: (e.g., Marine pollutant (Yes/No));	NA	NA	NA
Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code)	NA	NA	NA
Special precautions for user: which a user needs to be aware of, or needs to comply with, in connection with transport or conveyance either within or outside their premises.	NA	NA	NA

DOT Hazardous Materials Description: Not a DOT controlled material(United States). Not a TDG-controlled material.

15. Regulatory information (Non-mandatory)

15.1 Safety, health and environmental regulations specific for the product in question.:

Relevant information regarding authorization: Not applicable.

Relevant information regarding restriction: Not applicable.

Other regulations:

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200

15.2 Chemical Safety Assessment has been carried out? No.

16. Other information

16.1 Indication of changes: Revision 3.0 Final revision date: June 12th, 2017

16.2 Relevant H-phrases (number and full text):

H317 May cause an allergic skin reaction.

16.3 Training instructions: NA.

16.4 Further information: NA.

16.5 Notice to reader:

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgment of suitability of this information to ensure proper use and protect the health and safety of employees.

This information is furnished without warranty, and any use of the product not in conformance with this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
